Vikings 8-6 Over Rams

At Pellston Friday

The Grayling Vikings homecoming was a success by the narrow margin of 8-6 as they defeated the upset minded Harbor Springs Rams here last Friday evening.

The alertness of Jim Tobin was the deciding factor in the victory, as the Viking offense was stymied throughout the game. Tobin, playing the free safety on defense, picked up a Harbor fumble and scooted 53 yards for the Vikings lone TD. Tim Mead passed to Brian Duncley for the all-important 2 point conversion, which proved the deciding spread in the ball game.

Harbor's lone TD came in the second quarter on a two yard plunge by Mark Allerding. The pass for the conversion attempt failed and that was the ball game.

This Friday evening, the Vikings will invade the Hornets nest at Pellston in another step toward their second NLML crown.

Pellston will be entering the game following a 16-6 win over Kalkaska last Friday, and appear to be gaining momentum. Onaway defeated East Jordan in another NLML game 26-14.

"We just couldn't move the ball without either dropping it, throwing it away, or receiving a penalty," Coach Mike Wieland said. It was the worst offensive game we have played this year," he added.

The defensive unit scored for the third time this year. In five games the Vikings' defense has allowed 20 points, while scoring 18 themselves.

Murray Babbitt led the Viking secondary in tackles as he had seven solos and two assists. At least four of the tackles saved TD's, as he was the last Viking between the ball carrier and the end zone.

Jim Corlew again played an outstanding defense game with 11 tackles and six assists, and blocking one punt.

Jerry King topped the Vikings with 33 yards in 14 carries, while Allerding was the top Rams rusher gaining 80 yards in 21 carries.

The Vikings missed two other scoring opportunities when a Mead to Duncley pass reached the 12 before they fumbled the ball away. The green and white had a first down on the nine yard line as the game ended.

Breathalyzer Tests Added to Sheriff's Dept.

Your chances of being tested for drunk driving in Crawford County have just been increased substantially.

According to Sheriff Arthur F. Clough, Officer Joseph P. White Jr. has just completed a one week Breathalyzer training program at Michigan State University's Highway Traffic Safety Center and is now fully qualified to administer the breath test to persons arrested for drunk driving.

All motorists who are arrested for driving under the influence of intoxicating liquor are required by state law to take a chemical test. Refusal results in automatic suspension of the driver's license for a period of 90 days or two years.

The arrest rate for drunk driving has risen dramatically since the "Implied Consent" law was enacted in Michigan in November, 1967. Moving from a low of 7,000 (est.) in 1967, over 21,000 motorists were arrested in 1969. The 1970 total promises to climb even higher.

William E. Barber, course director at the Highway Traffic Safety Center, said that the successful completion of classroom and laboratory work by Officer White gives Crawford County a continued strong capability for effectively enforcing the law against drunk driving.

Both the Michigan Department of Public Health and Department of State Police supply classroom and laboratory instructors throughout the course. The Health Department is the certifying agency.

Public Hearing Oct. 29

Adopt County Budget

A public hearing on the 1971 Crawford County budget—which shows an increase of 8.39 percent over the 1970 operating budget—has been set for Thursday evening, Oct. 29, at 7:30 p.m. at the new County Building.

The new budget, totaling \$378,400 in spending for the coming year was adopted by the Board of Commissioners last week.

The increase amounts to \$28,977 over last years budget of \$349,423 for expenditures in running the county government.

Anticipated revenue for 1971 is estimated at \$385,373 which leaves a reserve of \$4,972 that will be used for debt retirement.

One of the major items in the increase over last year's budget is the county court system. Circuit Court costs show an increase from \$16,378 to \$21,248 this year. The Probate Court allocation is being raised from \$14,352 to \$15,655 while the District Court shows an increase from \$14,418 to \$19,823 for the coming year.

In addition to the basic sheriff department budget, the marine patrol appropriation is being increased from \$27,000 to \$30,000. With a recreation study being conducted this fall by the Department of Natural Resources on the users of the AuSable and Manistee rivers, it is anticipated that the marine patrol will likely be the enforcing agent.

Below is a function by function table of the 1971 budget compared to the present year's budget.

The Nov. 5th issue of the Avalanche will carry an itemized version of the 1971 budget as approved by the Commissioners, with the final adoption after the public hearing on October 29th.

Behind The Mirage

Remember the good old days when glib economists and money managers spoke of a "little inflation" as a good thing? Not so surprisingly, this kind of economic quackery appears to be passing out of vogue, and for good reason. People are beginning to realize where a little inflation can lead.

A recent authoritative projection based on trends of the last year or so has come up with the following figures: "If inflation continues to run at six percent a year (compounded) for the next 30 years, a person earning \$10,000 today will need \$57,000 for the same standard of living then. Today's \$20 bag of groceries will then cost nearly \$115. A TV set now selling for \$500 will cost nearly \$2,900. An auto with a current price tag of \$3,000 will go for over \$17,000. A \$25,600 home will jump to more than \$147,000."

This is the hard-rock reality that lies beneath the purple mirage of a little inflation. It can wreck the financial security and independence of everyone except the few who always manage to survive and thrive in the chaos of monetary disaster.

Undercurrents of Goodwill

While most of the news seems to portray a world hopelessly submerged in turmoil and conflict, there are deep-running undercurrents of goodwill among men that occasionally surface in stories of today's happenings.

Such is an item in The Chicago Heights, Illinois, Star reporting on an organization known as the American Field Service. The Star describes the AFS as a nonprofit and nonsectarian scholarship program which endeavors to bring about understanding among people of many nations. In words of the Star, "AFS annually brings more than 3,000 students from 61 countries to the United States. Its Americans Abroad program sends more than 1,400 teens yearly to 41 countries overseas. In the past 23 years, more than 47,000 students from 79 countries have participated in AFS international scholarship programs."

The students who participate in the American Field Service are the kind of young people who will work toward a higher level of understanding with due respect for the views and rights of others — something the world sadly needs.

Nobody Wants A Dump

By Willard Bosserman

Pitty the local officials who must come up with a new sanitary land fill site.

Even in Crawford and Roscommon counties which are eighty percent wooded have difficulties in locating a site. Not only is the area forested but is seventy-five percent publicly owned.

Nobody, but nobody wants a land fill within a mile of their place. People even object to the traffic which might go past their home even if the sanitary fill is miles away.

The new sanitary land fills are not all that bad. When licensed and operated according to State Health Department regulations all refuse must be covered each day.

Burning of brush is permitted only a few times a year.

As the fill progresses, trees are planted to reforest and to add to beautify the area.

Land fills near cities have been converted into municipal parks. Riverview, near Detroit is planning a 620 acre recreational, sports complex including a ski hill and eighteen hole golf course. That's making the best of a bad deal. That is putting the land nobody wanted to good use.

Sears, Roebuck and Company built a ten-story store with an eight-story tower on refuse-filled land in Memphis, Tenn.

Sanitary land fills are more expensive to operate than the old dumps. They are the cheapest alternative. Composting and/or incinerating cost more.

Because they are expensive it will be necessary for more than one municipality to work together.

This is nothing new for this area. The city of Grayling and Grayling township cooperate with one site. Markey township has an agreement with Lyon township to dump in their dump. Lake township operates a land fill in Roscommon township.

There is no reason why county lines should be barriers.

When the "drive in" refuse pick really gets established you will see much across county lines cooperation in operating sanitary land fills. By drive-in dumps I am referring to containers located strategically throughout the county in which citizens can deposit refuse. The pattern is already established at roadside tables.

Engagement Announced

Mr. and Mrs. Charles Beckwith of Grayling announce the engagement of their daughter, Linda Sue, to John Jakeway, son of Mrs. Carl Wallers of Petoskey and Mr. Fred Jakeway of Harbor Springs. A November 7 wedding is being planned.

The FBI in action

Law enforcement has made great strides in this country since the vulgar old days when G-men gunned down James Cagney and George Raft.

There may even be some truth to the gossip that J. Edgar Hoover is now doing Pat Nixon's hair.

You youngsters probably don't even recognize the term "G-men". That's short for "Government men". That's what they used to call the FBI back in the 1920's, before Efrem Zimbalist Jr was born and Ed Sullivan was the only thing to watch Sunday nights.

Those were the bootlegging days when Hoover was young but certainly not gay. G-men had just been issued guns and they lost no time in rat-tat-tatting themselves a rugged reputation. They were tough and they scared

the crooks. They were nice to have around if you expected John Dillinger for dinner. But goodness, you'd hardly want a G-man stationed permanently in your boudoir. He might show up in a checkered jacket, scratching, and spit tobacco juice in the philodendron.

That was yesterday. Today's FBI man is ever-ready to have tea with Queen Elizabeth. He's a college grad with a degree in horticultural criminology. He's dressed fit to pallbear and he's so polite he never points his gun without first announcing he's from the FBI (This gentlemanly gesture admittedly gives the criminal a headstart but so what? The FBI knows that fleeing crooks always end up on the top of water towers and where can they go from there?).

A present issue of Life magazine showed the modern FBI man in action. The story was about Attorney General Mitchell's wife Martha, the Washington hostess with the mostest mouth. Two of the pictures showed how the FBI helped Martha solve some crucial problems of state.

Martha needed to iron a dress to wear later to an important reception. She also needed a loose thread snipped from the back of the dress she was wearing. She obviously needed the FBI. And, fortunately, an FBI agent was present, guarding Martha against Communists.

The pictures show the agent maneuvering the hand-iron with incredible dexterity and capturing the wayward thread through intense concentration.

Professional criminologists were probably fascinated to note that the agent wore horn rimmed glasses for ironing, but took them off for snipping.

It is typical that Life didn't give the FBI agent's name. He was identified only by occupation. The FBI is made up of selfless men who want no personal glory for their marvelous achievements. They want only to protect you taxpayers, you people who pay their salaries, from wrinkled dresses and loose threads.

If an ordinary, glory-mad maid had been pictured ironing that dress, she would probably have demanded that Life print her name. But there was no maid around that day.

She was probably out fighting the Mafia. Somebody has to.

The Old Timer

"It takes a smart woman to decide if a man is too old to be considered eligible, or too eligible to be considered old."

WASHINGTON AND SMALL BUSINESS

A TAX IS NOT A TAX

The late Gertrude Stein was very big with the intellectual literati of her day with such impressive lines as "A rose is a rose, is a rose." To some this was fraught with great and significant meaning.

But it comes as quite a surprise that the Gertrude Stein influence permeated the halls of the Congress. It is not generally believed that Congressmen pay that much attention to avant garde poetry styles.

Yet in their own way, Congress recently contributed to this school of literature by passing a law which says, "A tax is not a tax, is not a tax, is not a tax."

This was achieved by the passage of the new tax on airline tickets. It is actually quite a hefty tax rate, imposed at a time when airlines are suffering from a business decline.

But the airlines cannot state on their tickets that this extra amount is a tax. This is strictly verboten.

In fact, if any airline employee should mention to a customer that this additional cost is a new Federal tax, there is a criminal fine of \$100 involved.

And to make the situation even more paradoxical, short-

ly after this law was added, it was collected from the public with a big secret made that it is a tax, another branch of the government jumped on the airlines for raising their fares sometime previously.

The basis of that branigan is that there were not sufficient public hearings on the matter, therefore the airline action in raising fares was strictly illegal, and quite under-handed.

And on another front, there is a great hue and cry in Washington over something called "conscientiousness." There is the charge supporting this movement that sometimes business deceives the public.

Undoubtedly the charges are highly over amplified, but by what other method can businessmen build their payrolls.

Or, how can the pot call the kettle black?

A government that can tell a business that they will raise their prices to their customers and pass on the additional money to Washington, but at the same time provide penalties for revealing this fact to the customer, does not seem the proper authority to protect consumer interests. Does a shepherd ask the wolves to look after the lambs?

To The Intermediate Board of Education
C.O.O.R. Intermediate School District
Prudenville, Michigan

We have examined the fund balance sheets of the C.O.O.R. Intermediate School District, Crawford, Ogemaw, Oscoda and Roscommon Counties, State of Michigan, composed of the general fund and the special education fund as of June 30, 1970 and the related statements of revenues and expenditures for the year then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. The examination did not include any verification of the child accounting records.

In our opinion, the accompanying fund balance sheets and the related statements of revenues and expenditures present fairly the financial position of the C.O.O.R. Intermediate School District at June 30, 1970, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Thought For Food

For an energy cocktail, combine 1 can condensed beef broth, ½ soup can water, and 1 can (12 ounces) "V8" juice. Heat or chill. Serves 4 or 5.

For a quick hot soup, stir 1 can condensed black bean soup and consommé, blend in 1 soup can water and 3 tablespoons orange juice. Heat, stir often. Garnish with grated orange rind. Serves 4.

Here's a popular dessert. Combine 1 cup graham cracker crumbs, 2 cups whipped cream, ¼ cup chopped maraschino cherries and 1 cup crushed pineapple. Spoon into freezer container; freeze until firm.

Add ½ cup coarsely crumbled potato chips to your favorite bread stuffing. The chips will add interest and crispness.

For a peach cream pie, soften 1 quart fresh peach ice cream slightly, at room temperature. Spread ice cream into 1 nine-inch graham cracker crust. Place in freezer 1 to 2 hours. At serving time, spoon 2 cups sweetened, sliced peaches over pie. Top with whipped cream.

1040 U.S. Individual Taxpayers Ask IRS

This column of questions and answers on federal tax matters is provided by the local office of the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q) Both of my children are having orthodontic work done and I'm going to have a big medical expense deduction for this year. Is there anyway to get some kind of tax credit for this now to help me pay some of the bills?

A) Yes, you may be able to have your employer reduce your income tax withholding based on the larger itemized deductions you expect. Instructions for making this change are given in Schedule A, Form W-4. Ask your employer for a copy.

Q) The Tax Reform Act of 1969 allows you to claim additional withholding allowances for large estimated deductions even when they exceed what you claimed last year. Until this change in the law, taxpayers were limited to the total claimed the previous year.

Q) The tickets I bought for a theater benefit list an amount I may deduct as a charitable contribution that is much less than what I paid. Why?

A) The law limits the charitable deduction to the difference between what would nor-

mally be paid for the tickets and what you actually paid. The amount listed as deductible on your tickets reflects this.

Be sure to save the tickets or other information that will establish this tax deduction. Since the full amount is not deductible, a check or receipt showing what you paid for the tickets needs to be supplemented by additional information. The deductible amount remains unchanged even if the tickets are not used.

Q) I'm collecting Social Security benefits in addition to my company pension. Is any of this taxable?

A) Social Security benefits are not taxable. However, your company pension will be taxable in whole or in part depending on how much you contributed to its cost.

If the plan is of a type where your contribution is recovered within the first three years, the pension is tax-free until your cost is recovered. After that, the full pension is taxable. Another provision you should check is the retirement income credit. It allows a tax-

payer to reduce his income tax by up to 15 percent of his retirement income when certain conditions are met.

Details on these provisions are given in IRS Publication 524, Retirement Income and Retirement Income Credit. Send a postcard to your District Director for a free copy.

Q) Can my son claim a withholding exemption for himself on his job if I still claim him?

A) Yes, your son may take an exemption for himself even though you are still entitled to claim him. If he is not aware of it, you should tell your son that it may be possible for him to avoid having income tax withheld from his wages. If he had no tax liability last year and expects his earnings to be less than \$1725 this year, he should file Form W-4E with his employer to accomplish this.

Q) I sold some farmland at a sizeable profit. Can I reduce my taxes by using income averaging?

A) Yes, capital gains are eligible for averaging. There are new provisions on both capital gains and averaging so check with either your local County Agent or IRS office if you have any questions about them when you file your return next year.

How Does The Election Look?

by Richard L. Millman

"How does the election look?" That's probably the most frequent conversation opener I hear these days in casual discussions.

And in response, I usually quote one of the more prominent political philosophers of the day—Lenore Romney—in her observation that "I have never had any reason to doubt polls."

Which is to say, then, that the Michigan election appears to be shaping up like this:

—Frank J. Kelley is a shoo-in for reelection as attorney general. His Republican opponent, William Farr of Grand Rapids, is just not making much of a dent on Kelley's long-standing hold with the people.

—Richard Austin, another Democrat, appears to be ahead of the Republican candidate, Emil Lockwood, for secretary of state, and Austin will probably win. This is what the polls now say, and this is how I would predict the outcome as of today; however, there are some obverse rumblings if you care to listen for them.

For example, the question of race is arising: Austin is Negro, Lockwood is Caucasian. Who is injecting race into the campaign is not clear: it may well be the voter himself and not either candidate. It should not have an effect on the outcome; it probably won't; but it might. In a state where there are more Democrats than

Republicans, Austin is helped by the fact that he's a Democrat in a state where there are more whites than blacks. Lockwood may be helped by the fact that he's white.

—For the supreme court, it appears that two old Democratic governors—G. Mennen Williams and John B. Swainson—will return to the state capitol in new roles as judges. It appears, as of now, that they will defeat the two Republican-nominated candidates, incumbent John R. Dethmers and Edward Piggins. Many Democrats seem to be taking this for granted; they are speculating on which former governor will receive the most votes.

—Democratic Sen. Philip A. Hart appears to be headed for a landslide victory over the Republican candidate, Mrs. Lenore Romney. In a remarkable and refreshingly candid comment recently, Mrs. Romney admitted that "it doesn't look like" she will be able to defeat Hart. Now, in the month before the election, no political candidate is supposed to admit any such fears — although usually such fears are present. But Mrs. Romney's straightforward comment was a joy to hear because it was so honest — something unusual in bigtime politics; it indicates the type of person Mrs. Romney is. But despite her directness, Mrs. Romney appears to be a sure loser to Hart.

—That leaves the big one, and I would have to

go along with the polls which indicate that Gov. William Milliken is just a couple of percentage points ahead of his Democratic rival, State Sen. Sander Levin. The narrow margin between the two means that the race still is to be decided, and either man could win.

In a side by side comparison, Milliken appears to be slightly ahead. But you just have to be impressed with the strength that Levin marshalled on primary day when he buried three other opponents — at least one of them better known than he was. That Levin support was not manifest before the primary, but it sure came on strong in the clinches.

In Michigan there are more Democrats than there are Republicans; a Republican candidate to win a statewide race must attract Democratic support, plus independent support. A Democratic candidate to win need not attract either; he could win on straight Democratic votes, if they all stayed in their own party column.

In the primary, it appeared that Levin commanded just such down-the-line loyalty from key party elements. If it is there again on Nov. 3, then Michigan might well have a new governor. And that's how it looks from here.

From Clark Bowers, Bryan, Ohio: "I remember many years back, when mother made rock candy and when a penny was a lot of money. We could buy peppermints and gumballs, jaw-breakers, licorice pipes, and cinnamon twists.

I worked in the coal mines, ten hours a day, six days a week. We lived near a creek and we often fished, using cork bobbers and hooks made from bent pins. I finished the second grade in school. I remember the teacher as stern and strict, sometimes using his horsehide whip to give someone a sore bottom. I walked six miles to school and supplied the meat for our table with "Old Betsy," my favorite shotgun."

From Mrs. Olive Kopka, Goodland, Indiana: "I remember when filling the copper boiler from the cookstove reservoir Sunday night after supper was forerunner of the Wanda wash. Dad would get up early and start the fire so mother would have boiling water by the time she had white clothes ready to boil. Boiling water poured through table linens removed fruit stains. Extra rubbing on the washboard took care of shirt-collared soil. Seeing mother make starch was a thrill. If any was left, we kids could use it for pasting pictures cut from old magazines.

ATTEND ASSEMBLY — Mr. and Mrs. Robert Kinn of the Grayling Congregation of Jehovah's Witnesses (right) and Mr. Richard R. Water Resource Planners Look For Answers

Will we be able to produce enough food in the year 2000? Can drinking water be provided for the population in 2020? How much of our cropland is damaged each year by flooding... by poor drainage? Will our rivers and lakes be usable for boating, fishing & swimming? These are some of the questions being asked. Water Resource Planners are looking for the answers.

River Basin studies look at all water resource needs of an area. Studies now being carried on in Michigan by the U.S. Soil Conservation Service and many other agencies, will assess the magnitude of these needs, reports Ken Nepper, District Conservationist at Roscommon. Present problems as well as needs which may occur in the next fifty years are being reviewed. The U.S. Department of Agriculture is involved in planning in three basin studies in Michigan. These are the Great Lakes Basin Study, Southeastern Michigan Water Resources Study, and Grand River Basin Study.

The Great Lakes Study is a broad framework study which covers all areas in the United States which drain into the Great Lakes. This includes all the State of Michigan and data has been gathered from each county. Wide use has been made of the Conservation Needs Inventory and other information collected by the Districts, says Houghton King, Jr., Chairman of the Crawford-Roscommon Soil Conservation District. Mr. King also said the results of this study will aid in planning for the development of the county as well as the region. The District and the U.S. Department of Agriculture are putting prime effort into problems of land use and management, irrigation, drainage, agricultural flooding, and sediment and erosion. They are also working closely with other agencies on needs for rural water supply, fish, shore use erosion, wildlife, and recreation.

The objective of the study is to provide a broad guide to the best combination of uses for land and water resources. To accomplish this, each use must be looked at individually and in combination with others. Multiple uses of land and water resources need to be encouraged if there is to be enough for future needs. These aspects are being included in the study. The study is scheduled to be completed in 1971. Reports will provide answers to many of the water resources questions of today.

Johnson - Budd Exchange Vows

Cecelia Johnson of Grand Marais, Minn., and James Lyle Budd of Grayling, repeated their wedding vows on October 3, 1970, at 1:00 p.m. at the Free Methodist Church. Rev. Otis Smith of Roscommon performed the ceremony before some 100 guests, and his daughter Marilyn Smith provided the music.

Given in marriage by Mr. Lewis A. Krome, her employer, the bride approached the altar wearing a dress of white lace with a matching headpiece. She wore a wrist corsage of bronze, yellow and white cushion mums.

Her matron of honor, Mrs. Evelyn Waite, wore a mint green lace dress and matching headpiece and carried a colonial bouquet of bronze, yellow and white cushion mums.

Karl Isenhauer was best man and ushers were Clayton Budd, brother of the groom, and Kenneth Clise, brother-in-law. Robert Steinbrink was junior usher.

A reception was held following the ceremony at the home of the groom's mother, Mrs. Percy Budd at 202 Lawndale Ave. A buffet dinner was served after which the couple opened their many lovely and useful gifts.

The bride's mother from Minnesota was unable to attend the wedding due to illness. Out of town guests included, Mr. and Mrs. Kenneth Clise of Wayne, Mr. and Mrs. Robert Johnson and family of Pierce, Mrs. Geraldine Cooney and family of Warren, Mr. and Mrs. Don Clise and family of Wayne, Clayton Budd of Hazel Park, and Mrs. Ted Finch and son of Fairview, and Mrs. Robert Finch of Mason, Mrs. Robert Martin and family of Mancelona and Mr. and Mrs. George Hilde of Lansing. They also received the best wishes of friends in Minnesota, Ypsilanti, Dearborn and Louisville, Ky.

They spent just a couple of days honeymooning in Houghton Lake, planning later to take a trip to visit her mother, sisters, brother and other relatives.

The new Mrs. Budd plans to continue working for Mrs. Krome. Mrs. Krome was injured in an accident four years ago and she has been in and out of hospitals ever since.

They are presently making their home at 206 Alger.

Former Student On Adrian's Dean's List

ADRIAN — Senior elementary education major, Mrs. Karen Cherry, daughter of Mr. and Mrs. Roy D. Wedge of Grayling, has been named to the Dean's List at Adrian College (Adrian, Mich.) for outstanding academic achievement during the 1970 academic year.

To be named to the Dean's List a student must have a 3.25 average on a four-point scale. Generally, this means their grades must include at least one A and no grade lower than a B.

Mrs. Cherry is also a member of the Sigma Sigma Sigma sorority.

Dem Candidate Opposes Gas Tax

Erika Belmoor, Democratic candidate for the 36th Senatorial district, at the Holiday Inn, today "opposes the 2 cents per gallon gas tax increase during the next two years to build a stretch of highway between Howard City and Reed City. This is a smoke screen! Remember the temporary six months sales tax of 1933. It's still on, with more added.

"This freeway must be built NOW, not in 1975 or 1980 as proposed, by the powers above, but NOW by reordering the priorities and schedule of the Highway Commission." On the top of these added 2 cents, President Nixon wants 3 cents for anti-pollution and 3 to 4 cents rumored by the gas companies, to take the lead out. Your gallon of gas will cost 47 to 52 cents hitting hard the wage earner going to work and all fixed income groups. Will they be forced to travel on a bicycle or a mule?

Let us use our share of the monies wasted in Southeast Asia to rebuild Michigan.

Teach them the wonder of its foliage, the panorama of its seasons, the mystery of ever-renewing life.

Teach them the world God made.

But teach them, too, the God who made the world . . . the majesty of His Power, the purity of His Holiness . . . the tenderness of His Love.

Teach them the Christ through Whom our Creator revealed His heart to mankind.

There is no greater tragedy than to cherish a book, but not understand its Author.

Madsen-Theaker Wed October 3rd

Michelson Memorial United Methodist Church was the scene of the wedding of Susan Madsen, daughter of Mr. and Mrs. Howard R. Madsen of Grayling, and Chuck Theaker, son of Mr. and Mrs. Alfred Theaker, also of Grayling, on Saturday, October 3. Rev. Paul Frederick officiated at the two o'clock double ring ceremony before the altar, which was decorated with blue and white mums and candelabra.

Mrs. June Feldhauser, grandmother of the bride, sang and played "What is a Youth" from Romeo and Juliet, and "The Lord's Prayer."

Given in marriage by her father, the bride wore a gown of chantilly lace and taffeta, fashioned with empire bodice, high scalloped neckline and bishop sleeves, which were accented with sequins. The skirt formed a demi-hell silhouette in front and tiered ruffles extended into a chapel train in the back. Her petal headpiece was of chantilly

lace edged in seed pearls and held her elbow length veil of imported illusion. She carried a cascade of white carnations and white roses, accented with blue ribbon.

Maid of honor was Barbara Marlow and Sandy Madsen, sister of the bride, was bridesmaid. They wore shirtwaist styled gowns with bodices of white eyelet lace and ruffled jabots, with bishop sleeves. The skirts were of turquoise linen with belts of green velvet and headpieces of green velvet bows. They carried cascades of blue and white mums.

A reception was held immediately following the ceremony in the church parlor for the 200 guests attending. The blue and white color scheme was carried out on the buffet table as well as the bride's table.

For her daughter's wedding, Mrs. Madsen chose a pink crepe dress with matching accessories. She wore a corsage of white carnations. Mrs. Theaker wore a gray sheath accented with pink and black, for her son's wedding, with matching accessories. Her corsage was of pink carnations.

The newlyweds are making their home in Bay City. For her going away attire, the bride wore a sapphire pantsuit and a corsage of white roses.

The bride attended Grayling High School. Her husband is a 1969 graduate of Grayling High School.

Out of town guests attended from Ypsilanti, Rogers City, Saginaw, Alma, Trenton, Wolverine, Vanderbilt, Gaylord, Flint and Petoskey.

A rehearsal dinner was held at the Arrowhead Inn Friday, October 2, by Mr. and Mrs. Alfred Theaker.

MERCY HOSPITAL AUXILIARY

At their October business session, the Mercy Hospital Auxiliary agreed to meet head on the Silver Tea weather "jinx" by setting the date for Friday, Nov. 13. Hopefully, this bold move will forestall the usual blizzard.

Patrons will be served tea, coffee and calories. Baked goods, candy and stationery are to be for sale, and good friends will gather and visit. We hope you will all come.

Our major fund-raising activity each year is the Silver Tea, and a major supporter is Mr. Arnie Mauren, whose kindness and cooperation in making available the Shoppenagons Motor Hotel's space and facilities is deeply appreciated.

We hope that others in the area will cooperate by attending the Tea and donating whatever they can to make it possible for the Auxiliary to buy another needed piece of equipment for the hospital.

Since we recently purchased equipment for a beauty shop in the Extended Care Facility our treasury is almost empty. Bear in mind that every penny the Auxiliary earns is spent for the benefit of the general public.

We are justly proud of our hospital and it's fine staff. Aiding the Auxiliary is one way of demonstrating that pride — a peaceful and pleasant demonstration!

TEACHERS EARN DEGREES AT CMU

Your Health
The total amount spent for health care in the United States has increased approximately four times since 1950.

Twilight Twirlers

Fifteen members of the Twilight Twirlers led by Mrs. Darla Lippard marched in the C.M.U. Homecoming parade at Mt. Pleasant on Saturday, Oct. 17. The parade route was a little over four miles and took about 1½ hours to complete. The unit marched behind Dr. Anspach, past president of C.M.U. and parade marshal. They marched to the music of the "Marching Chips", the C.M.U. band.

Despite many complications, problems and a very chilly early morning the girls did an excellent job of performing. Ricky and Mike Lippard carried the banner and Daneen Lippard marched as the mascot. The girls marching were Leeb Brown, Cindy Steinbrink, Connie Morningstar, Kathy Minor, Kathy Welch, Sonia Evans, Nola Laeder, Joyce Myers, Mary Stewart, Shannon and Robin Frederick, Brenda Rettell, Marilyn Latusek and Beth Trenary. Arvilla Stephan attended but due to a mix-up in her uniform was unable to march.

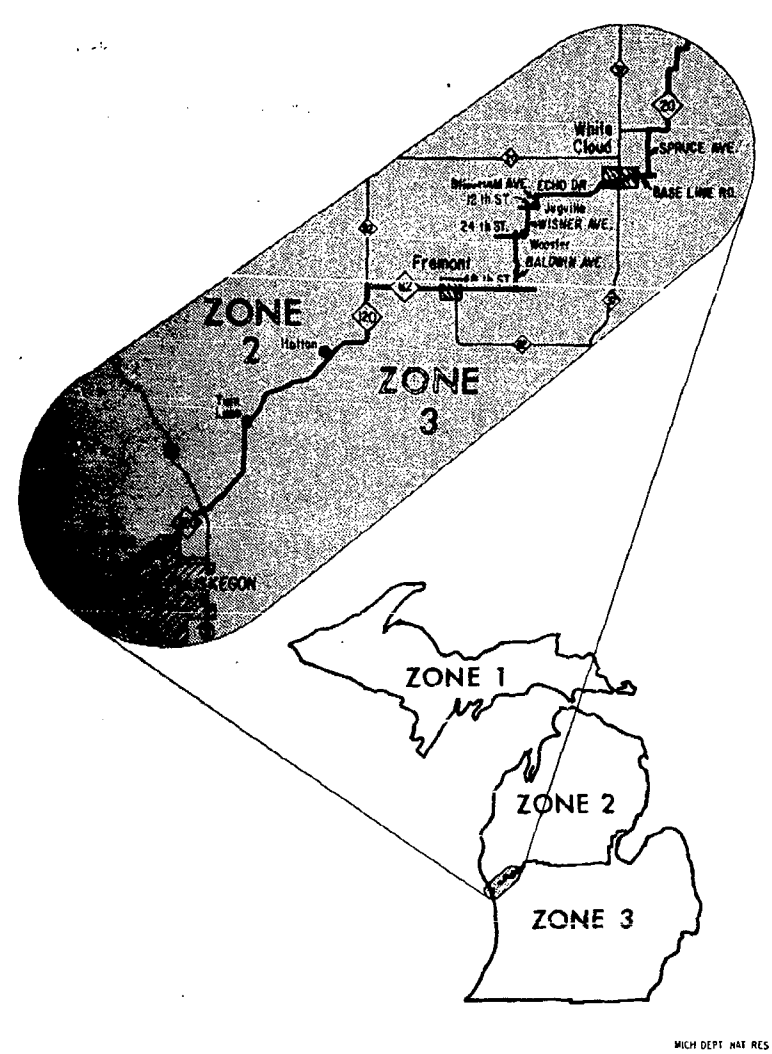

We wish to express our thanks and appreciation to Rev. Paul Frederick, Mrs. Pete Latusek, and Jack Stewart for driving the main body of girls to Mt. Pleasant. The girls changed into their uniforms at the Broadway Theater.

The squad leaders will be doing a short program for the senior citizens at Ausagra Acres on Wednesday, the 21st. Plans are in progress for other short programs.

Anyone wishing to have the girls perform for them call Mrs. Lippard at 346-7037 after 5 p.m.

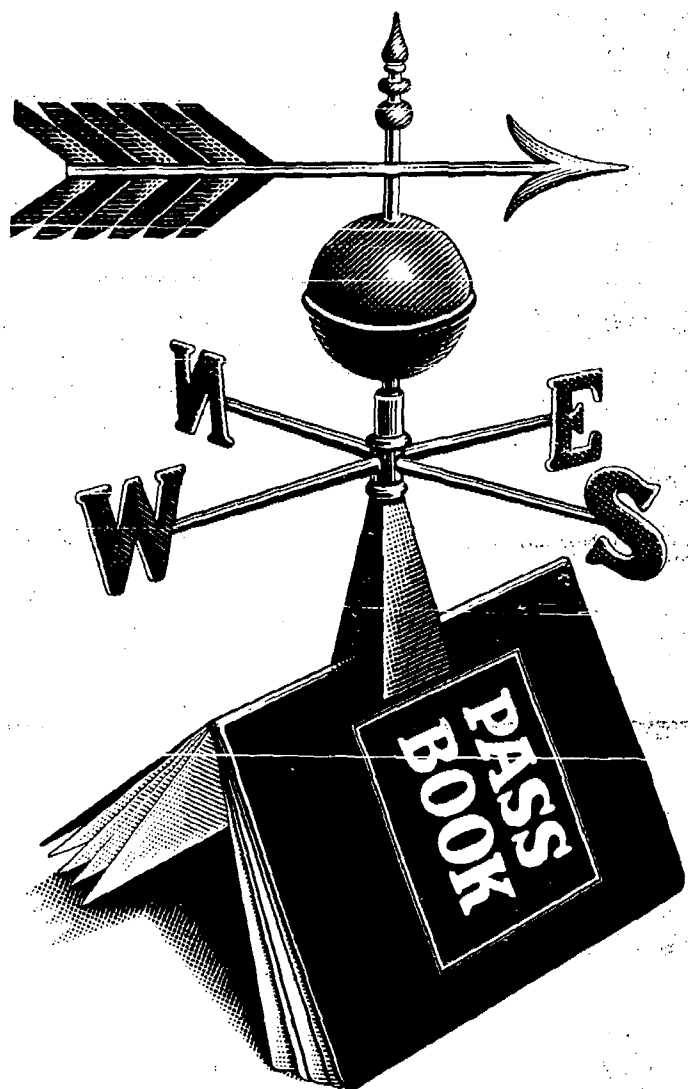

Extra Ham
Homemakers today purchase pork from leaner hogs. The amount of ham and loin in hogs has increased by 23.5 per cent, the equivalent of an extra ham for every hog. There's a more uniform year-round supply because with better feed utilization it takes less time to get hogs to market.

Same Boundary Line: New Road Titles

For years, Highway M-20 was known as the hunting boundary between the northern (Zone 2) and southern (Zone 3) halves of the Lower Peninsula in the oblong area pinpointed above. It isn't any more. The dividing line in this part of western Lower Michigan still follows the same previous route, but the stretch mapped out here now has been redesignated with the titles

of locally-named roads, streets, avenues, and drives. North of White Cloud, M-20 remains unchanged and continues to serve as the hunting boundary between Zones 2 and 3 as it stretches eastward to US-10 near Bay City. Highways and roads forming the remainder of that dividing line from there still carry their previous designations and follow the same routes as before.

Taxpayers Vote NO!

Both candidates for Governor and both candidates for the U.S. Senate in Michigan's Nov. 3rd election have announced publicly they will vote "no" on Proposal C, a constitutional amendment that would prohibit the use of public funds for non-public schools. The State Board of Education also has urged Michigan voters to vote "no" on Proposal C.

BUSINESS LEADER SPEAKS OUT

Walker L. Cisler, Chairman of the Detroit Edison Co. and Chairman of Michigan Citizens Against Proposal C, said the proposed constitutional amendment to ban any form of public aid for non-public schools "will have a most serious economic impact upon the entire state, and particularly every individual taxpayer in Michigan" unless it is defeated. "But more than that, and most importantly," Cisler said, "Proposal C would deprive thousands of school children of needed health, education and welfare services so essential to a sound education." He urged Michigan citizens to vote "no" on Proposal C.

UAW LEADERS OPPOSE PROPOSAL C

Douglas Fraser, Vice President of the UAW and a Vice Chairman of the Michigan Citizens Against Proposal C, said the UAW opposes Proposal C because "we think it is wrong - morally and legally wrong -- to deny any child in this state, wherever he goes to school, the services of a public health nurse, a speech therapist, or a counselor for the emotionally or mentally disturbed child. 'That's why', Fraser said, "our organization will work hard to inform our membership, and the general public, of our organization to this Proposal -- and ask them to vote 'no' on Proposal C on Nov. 3."

IT'S BADLY WRITTEN

Proposal C - the constitutional amendment that would prohibit the use of any public funds for non-public schools -- is so badly written it could cost the State of Michigan \$60 Million a year in federal education funds for public schools. Proposal C is that badly written. Don't let Proposal C boomerang on our schools. Vote NO on Proposal C on Nov. 3.

VOTE "NO" ON PROPOSAL C

If approved, Proposal C will deny health, welfare, and education services for 274,000 children enrolled in Michigan's more than 800 non-public schools, jeopardize \$60 million in federal education funds for public schools and increase taxes for all Michigan citizens. Vote "NO" on Proposal C on Nov. 3rd.

SMOKEY VISITS FIRST GRADE — One of the highlights of Fire Prevention Week in First Grade was a visit by Smokey and the new fire engine. The big plow used by the Conservation Dept. was also on display. We learned many things. The firemen answered many questions and showed us how the equipment works. We appreciate the time spent to give us such helpful information. We want to say "Thank you" to Smokey and the members of the department that visited us. First Grade.

Form Minister's Association Here

On Thursday, Oct. 8th, seven ministers from the Crawford County Area met and formed the Crawford County Minister's Association.

Those present included: Father Victor Gallagher from St. Mary's; Rev. Don Beyer from Mt. Hope Lutheran; Rev. Bob Haskel from St. John's Lutheran; Rev. Cliff Molnar, Assembly of God; Rev. Jack Carlton from St. Francis Episcopal; Rev. Paul Frederick from Michelson Memorial Methodist; and Rev. Paul Aumiller from the Frederic Church of God, in absentia.

The Association is open to all members of the clergy in Crawford County, regardless of denomination. Its aim is to coordinate and co-operate in programs that will bring the community together and make the message of the Christian Gospel a part of private and public life.

Several important programs are already in the study and organizational stage: Co-operative pre-marital group counseling, a Christian coffee house, effective ministry to Ausagra Acres and Mercy Hospital's Convalescent Center, monthly youth rallies and folk singing, and a radio ministry of outreach and devotion.

Two offices were set up and elections were held. The president will be Rev. Paul Frederick from the M. M. Church. Father Vic Gallagher from St. Mary's was chosen as sec.-treasurer.

The next meeting will be held on Thursday, Nov. 12th at the former St. Mary's Convent at 8:30 a.m. All members of the county clergy are urged to attend.

Lake Margrethe

Mrs. Wilma Nichols and friend of Royal Oak stopped last Tuesday morning to see the Truman Marietta. They were enroute home from Gaylord where they had spent a few days at Mrs. Nichols' chalet there.

Word was received at the Lake that Leo Kooper lost his sister in Calif. She had been there in August visiting friends.

Michael LeButt and Jim Penn spent overnight last Wednesday with Michael's grandparents, Mr. and Mrs. Truman Marietta. On Thursday they spent the day on a trip down the Manistee River.

BITS O' TALK

Mr. and Mrs. Howard Deckrow of Davison spent last week here working on their cottage.

Mrs. Eugene Lovell, Mrs. Karol Miller and Mrs. John Toelle spent last Tuesday in Petoskey on business and enjoyed a color tour of the area.

Sunday, Oct. 11, Mr. and Mrs. Carl Doroh drove to the Upper Peninsula and enjoyed the colorama which was beautiful all the way to Marquette and visited their daughter and husband, Mr. and Mrs. Gary Townsend. The Townsends recently moved there from Bettendorf, Iowa. Gary has a position with Northwest Electronics. While there they also toured some of the western part of the Peninsula—Ishpeming, Independence Lake and Big Bay. They came home by way of Christmas and Munising. On Lake Superior and Lake Michigan shores they enjoyed many flowers with the color tour, arriving home Thursday evening.

Dale Rohde of Recreational Motors recently completed the two-week factory service school program at the Johnson Motors complex in Waukegan, Ill.

The Rod Powers of Hart were home Sunday to visit her parents, the Arthur Carlsons, after attending the Homecoming on Saturday at C.M.U. Richard arrived home Saturday after a month's training in the Naval Reserve. Also, Christine arrived on Saturday from Kalamazoo for some last minute preparations before her move to Springfield, Mass. on October 26.

Mr. and Mrs. Don Legg, Mr. and Mrs. Dick Baker, Mr. and Mrs. Hazen Hatfield and boys and Mrs. Harold Hatfield, Sr. spent Thursday in Harbor Springs attending the funeral of Lee Berry. He was an uncle of Mrs. Legg and Mrs. Hazen Hatfield and has been a frequent visitor here thru the years.

Mr. and Mrs. Lloyd Berry of Pontiac spent some time in Grayling Saturday visiting the Don Leggs and Hazen Hatfields. They also attended the funeral of his uncle, Lee Berry, in Harbor Springs on Thursday.

courage them to do and try to promote and help in making arrangements when necessary. Public housing for families should not be a way of life, but a stepping stone to help them get on their feet in order to buy a home of their own. In 90% of the cases, after the tenants become accustomed to a nice unit, they do plan to purchase and continue a better way to live. We are proud of the accomplishment of most of our present and former tenants. Most of them pay their rent very promptly. Delinquent rent is not tolerated and they are evicted and room made for someone who appreciates these fine units. You are not helping a family if they don't first learn they have an obligation to pay their rent.

The elderly is another matter. When their own homes become too large or they are unable to maintain them and they move to Ausagra Acres, they plan to make this their permanent home. The companionship and way of life helps to make them happy, contented, and may prolong their lives. To the best of our knowledge, we have no unhappy senior citizens at Ausagra Acres.

If anyone has any of the following items which they would be willing to donate, we can make use of them at Ausagra Acres:

1. Hearing Aids. Used hearing aids that could be repaired and a new ear cone made to fit a senior citizen. We have a number of seniors who are in need of a hearing aid and they cost over \$300.00 new.

2. Clothing. Children's clothing from 6 months to 14 years, mainly boys and girls from 3 to 9—trousers, shirts, dresses, underwear, shoes, boots, winter coats, jackets and mittens.

3. Furniture. A piano for family community room, davenport, occasional chairs, bed springs and mattress, drapes, a ping pong table, pool table and various games and woodworking tools.

4. Material for Hobbies and Crafts. Nylon stockings to cut up for stuffing; ceramic paints and brushes; satin or velvet lined boxes like electric razors come in; pieces of material for doll clothes; lace, ribbon, rick-rack; pine cones — most anything you don't need — we can use.

If anyone has any of the above items that you would like to see put to a good use and that would be appreciated, please call Lora Gould — 348-9314 or 348-2331.

We are planning additional culture programs for our families, such as budgeting, sewing, etc., and can use some volunteers. If you have a talent and would like to share it with us, let me know. Lora Gould, Director

gins Lake - Rosecommon Chamber of Commerce. Featured speaker will be Wallace D. "Mike" Nunn, of East Tawas, vice chairman of the State Highway Commission.

Miss Michigan Highways, Barbara Dean of Lansing, will join the West Branch - Rose City homecoming queen welcoming guests at West Branch ceremonies.

Cost of both freeway sections and the southern section of the West Branch Business Loop, exclusive of right-of-way, totaled nearly \$10 million. Contractors on the projects were Sterling Garrett of Walled Lake, Maclean Construction Co. of Lansing, the Eisenhower Construction Co. of East Lansing and Prokesh Construction Co. of Iron River.

I-75 extends from Sault Ste. Marie to Miami, a distance of nearly 1,600 miles, of which nearly 85 percent is open to traffic. A highway from the Soo to Florida was first promoted in 1915 at a meeting of southern governors along the route. The "Dixie" Highway in Michigan, a portion of this route, was dedicated in 1929 by Grover C. Dillman, then state highway commissioner.

Miss Middlewood To Speak Here
